- DBMS

EXPERIENCE

REDGRAPE BUSINESS SERVICES | Senior Software Developer
Jun 2020 - Present | Chennai, TamilNadu
- Leading **AWS cloud migration projects**, transforming **Java ATG monolithic applications** into **microservices**
- Hands-on with **AWS services** (EC2, S3, IAM, Lambda, RDS, CloudWatch, VPC).
- Collaborated with architects and teams, providing **demos** for transformation projects.
- I worked on the subscription team to develop the REST API and migrated the renewal process to AWS.
- Served as a **critical resource** in handling **production and P1 issues** across the e-commerce platform.
- Worked with **ATG Framework** to build and enhance **Java-based e-commerce websites**
- Specialized in **API development** and backend integration with SQL
- Tech stack: **AWS, NodeJs, Typescript, Java, ATG**
- Database: **Oracle SQL, AWS DynamoDB**

AURAINE BOTANICALS PVT LTD | MIS-Coordinator
Sep 2018 – Sep 2019 | Chennai, TamilNadu
- Created **daily dashboards, automated Excel reports, and SQL-based reports**
- Collected sales team data and delivered **month-end performance & forecast reports**

INTELENET GLOBAL SERVICES | Customer Support Associative
Mar 2016 – Jul 2018 | Chennai TamilNadu
- Handled **credit card verification calls** and successfully **upsold Credit Card Protection Plans (CPP)**
- Transitioned to **MIS reporting** by learning **Advanced Excel**, supporting **performance tracking** and reporting.

PROJECT

PORTFOLIO WEBSITE :// dineshportfolio.com
- Built a **personal portfolio website** to present technical skills, career journey, and key projects
- Showcased **skills, accomplishments, milestones, and achievements** in a structured format
- Aimed at effectively communicating expertise to **employers, clients, and collaborators**
- Tech stack: **AWS, HTML, CSS**
- Database: **AWS DynamoDB**

SHOPPERSWORLD – WEB APP :// shoppersworld.com
- Developed a **full-stack e-commerce platform** featuring both **user** and **admin** interfaces
- **Admin panel** includes capabilities to manage products, inventory, and other key data
- Implemented **role-based access control** to separate user and admin functionalities securely.
- Tech stack: **Java, Spring Boot**
- Database: **AWS DynamoDB**
